

# Robinson Secondary School Virtual Curriculum Fair January 6, 2020

---

---

The Curriculum Fair is presented so that you will discover courses which may interest you. In this virtual setting you will have more time to explore all the electives that we have to offer in our building. Use the course selection sheet as your guide to the google site. This site will be accessible after the Elective's fair.

Here are a few thoughts as you think about choosing elective's:

1. Choose the courses that you would like to know more about and list them below.
2. If you have more questions about specifics related to a class, email the teacher.
3. Let this planning sheet help guide your academic advising discussion with your counselor. Have courses in mind before you speak with your counselor.
4. You don't need to have ALL of the answers...but you need to have some ideas to help with the conversation.

MS: Most of you have 2 periods to choose electives. You can choose 4 semester courses, 1 year long and 2 semester, or 2 year long courses. A year long language class counts as one of those electives.

HS: Most of you have 2-3 periods to choose electives. If you are choosing a language, that will count as one of your electives.

Classes I am considering taking:

_____	_____
